NUCLEAR AND CHEMICAL WASTE MANAGEMENT

Volume 8, Number 1 1988

CONTENTS

William J. Lacy	1	Editorial
W. F. Holcomb R. L. Clark R. S. Dyer F. L. Galpin	3	USEPA Radioactive Waste Disposal Standards: Issued and Under Development
J. Gruber	13	Natural Geochemical Isolation of Neutron-Activated Waste: Scenarios and Equilibrium Models
Lucjan Pawłowski Ewa Smulkowska William J. Lacy Alain Verdier	33	A Study on Recovery of Ammonia From Hydrolysis of Urea in Industrial Effluents
T. H. Jeffers K. S. Gritton P. G. Bennett D. C. Seidel	37	Recovery of Cobalt From Spent Copper Leach Solution Using Continuous Ion Exchange
Tsunetaka Banba Shingo Tashiro Kiyoshi Nukaga Tamio Sagawa Masayuki Nomura	45	Adsorption on Various Leach Container Materials of Plutonium and Curium Leached From Nuclear Waste Glasses
M. B. Walter R. J. Serne D. L. Johnstone D. R. Yonge	55	Chemical Characterization, Leach and Adsorption Studies of Solidified Low-Level Wastes
T. Porębski K. Zięborak Cz. Bażela J. Grudzień	69	Extraction of Phenols With *Tert*-Amyl Methyl Ether From Coking Plant Wastewater: Laboratory and Pilot Plant Results
Lee A. James	75	Cracking of a Nuclear Waste Container Material by Irradiation in a Simulated Groundwater
L. Liberti N. Limoni C. Longobardi A. Lopez R. Passino S. J. Kang P. J. Horvatin	83	Field Demonstrations of the RIM-NUT Process for Nutrients Recovery From Municipal Wastewater

Book Review

Katarzyna Majewska-Nowak — 87 *Chemistry for Protection of the Environment* edited by L. Pawłowski, G. Alaerts, and W. J. Lacy

89 Books Received

I New Patents and Published Patent Applications from the United States and over 30 Other Countries

V Software Survey Section

Volume 8, Number 2 1988

CONTENTS

Dixy Lee Ray — 91 Editorial

Claude W. Sill — 97 Volatility of Cesium and Strontium From a Synthetic Basalt

E. Czárán, Á. Mészáros-Kis, E. Domokos, J. Papp — 107 Separation of Ammonia From Wastewater Using Clinoptilolite as Ion Exchanger

C. P. McGinnis, R. A. Jacobus, L. H. Bell — 115 CEUSP: A Large-Scale Conversion and Solidification of Highly Radioactive Liquid Waste

D. W. Faletti, L. J. Ethridge — 123 A Method For Predicting Cracking in Waste Glass Canisters

K. C. Donnelly, K. W. Brown, D. G. DiGiullio — 135 Mutagenic Characterization of Soil and Water Samples From a Superfund Site

John C. Walton — 143 Mathematical Modeling of Large-Scale Nonuniform Corrosion: Coupling of Corrosion, Transport, and Geochemical Processes in Nuclear Waste Isolation

D. B. Rivers, F. R. Frazer, III, D. W. Mason, T. R. Tice — 157 Enzyme Stabilization For Pesticide Degradation

Ismail M. Madany, M. Salim Akhter, S. Mahmood Ali — 165 Heavy Metals Analysis in Bahrain Refinery Sludge

169 Letter to the Editor

Book Reviews

Dixy Lee Ray — 171 *Toxic Terror* by E. M. Whelan

R. J. Eldridge — 172 *Wastewater Treatment by Ion Exchange* by B. A. Bolto and L. Pawlowski

Volume 8, Number 3 1988

CONTENTS

Bernard Chaufer
André Deratani
175 Removal of Metal Ions by Complexation-Ultrafiltration Using Water-Soluble Macromolecules: Perspective of Application to Wastewater Treatment

Anthony J. Tesoriero
L. Paul Knauth
189 The Distribution of Trace Water Around Brine Leaks in the Avery Island Salt Mine: Implications for the Natural Migration of Water in Salt

A. G. Bobba
S. R. Joshi
199 Groundwater Transport of Radium-226 and Uranium From Port Granby Waste Management Site to Lake Ontario

B. M. Rzyski
A. A. Suarez
211 Evaluation of Homogeneity of Radioactive Waste Forms: Statistical Criteria

S. S. Sorini
L. P. Jackson
217 Evaluation of the Toxicity Characteristic Leaching Procedure (TCLP) on Utility Wastes

JoAnn S. Lighty
David W. Pershing
Vic A. Cundy
David G. Linz
225 Characterization of Thermal Desorption Phenomena for the Cleanup of Contaminated Soil

E. Zamorani
I. A. Sheikh
G. Serrini
239 Physical Properties Measurements and Leaching Behavior of Chromium Compounds Solidified in a Cement Matrix

I New Patents and Published Patent Applications from the United States and over 30 Other Countries

VII Software Survey Section

Volume 8, Number 4 1988

CONTENTS

Oak Ridge Model

Thomas A. Row
247 Editorial: Oak Ridge Model

Gary K. Jacobs
Brian P. Spalding
J. Gary Carter
Sydney S. Koegler
249 In Situ Vitrification Demonstration for the Stabilization of Buried Wastes at the Oak Ridge National Laboratory

W. F. Buckingham
J. M. Spaw
E. B. Peacock
261 Evaluation of Waste-Entrained Concrete Using Image Analysis and Quantification

G. J. Anastos
J. W. Noland
N. P. Johnson
R. Williams
269 Innovative Technologies for Hazardous Waste Treatment

S. H. Welch **B. A. Kelly** **M. F. P. DeLozier** **W. E. Manrod**	283	Planning for Closures of Hazardous Waste Land Disposal Units at the Oak Ridge Y-12 Plant
D. E. Daniel **C. D. Shackelford**	299	Disposal Barriers that Release Contaminants Only by Molecular Diffusion
Christopher S. Manikas **Kevin R. Boyer**	307	Use of On-Site Chemical Analyses in the Identification of Groundwater Contamination Sources Affecting the Rockaway Borough Well Field
Jerry L. Gray **B. Roger Lankford**	321	Radiation Protection and Monitoring for Well-Drilling Operations
	I	List of Contents and Author Index, Volume 8, 1988
	IX	New Patents and Published Patent Applications from the United States and over 30 Other Countries
